

Urine Analyzer

Uri-Plus 200

Compact & Easy to Use

ASPEN DIAGNOSTICS PVT. LTD.
(Rapid Diagnostic Group of Companies)
ISO 9001 : 2000 CERTIFIED COMPANY

Urine Analyzer

Uri-Plus 200

Product Characteristics:

- Long life cold light illuminator measuring system with 4 wavelength improves the sensitivity, accuracy and precision of the results
- User can edit sample ID / patient name
- **Uri-Plus 200** automatically rectifies the test results influenced by ambient temperature, pH, specific gravity and color
- Automatically detects the test strips
- Can be connected with external barcode reader & urine sediment analyzer

Technical Specifications:

- **Test parameters:** urobilinogen, bilirubin, ketone, blood, protein, nitrite, leukocytes, glucose, specific gravity, pH, ascorbic acid
- **Test wavelength:** 525nm, 572nm, 610nm, 660nm
- **Test principle:** Photoelectric colorimetry
- **Suitable strips:** UTS-8, 10, 11 parameters strips
- **Test throughput:** Fast Mode: 120 Test/h, Slow Mode: 60 Test /h
- **Data memory:** 1000 patient results & 50 Q.C. results
- **Computer interface:** RS-232 port; parallel printer interface
- **Display:** 130 x 40 mm LCD
- **Power Supply:** 100-240VAC, 50Hz/60Hz
- **Power:** 40VA
- **Dimensions:** 376mmx316mmx170mm
- **Weight:** 3.6kg
- **Printer:** *Built-in* thermal printer / external printer (optional)
